APPENDIX C

<u>1997 – 1999</u> <u>PROTOTYPE CONTRACT SUPPLEMENT</u>

B. **OVERVIEW**

The two-year Prototype is mandated by Education code Section 8451. This Legislation required the California Department of Education (CDE) to test recommendations made in the CDE document titles "Revisions to the Current contracting System for Child Care and Development Programs", (February 1996).

Some of the areas that were tested during the term of this Prototype include: the consolidation of program types, revision to enrollment and attendance accounting and reporting, redefinition of "Start-up" costs, creation of a two year contract period, revisions to the annual audit (private agencies only), revision to administrative costs for alternative payment agencies, an evaluation of the center-based rate structure and other alternatives to the existing system.

C. **PROTOTYPE ACTIVITIES**:

The following is a summary of those activities that were implemented and their impact on Prototype participants:

Simplify Attendance Accounting Requirements for Direct Service Contracts

Center-based Prototype agencies have been divided into groups, one reporting as usual and the other using an alternate attendance percentage system. Within the latter group, two sub-groups were formed, Model Two and Model Three. Model Two is testing an enrollment and attendance system that will track a child without regard to whether an absence is excused or unexcused. "Flex" percentages on attendance have been developed and are applied to an agency's actual attendance by age group to determine service earnings. Model Three, as well, will not track excused and unexcused absences, but for statistical purposes days of attendance must be reported. Service earnings for Model Three will be based on adjusted days of enrollment only.

All participants have had their center-based contracts amended to reflect a two year term, therefore, it will be necessary to report **cumulative** days of enrollment and attendance (beginning July 1, 1997), as well as cumulative revenue and expenditures on the appropriate FASD/CD report form.

Revised attendance guidelines

The changes that we have made to the attendance accounting system have allowed contractors to maximize attendance levels and ensure prompt disenrollment of families that do not meet the agency guidelines to ensure that slots are available for those in need. Although the CDE has allowed contractors to develop their own guidelines that define limits on the length of time and numbers of absences that are allowed before a family is disenrolled from the program, the CDE must ensure that there are adequate provisions in place to guarantee that available slots are fully utilized. Each agency must submit a copy of the revised guidelines used in their parent handbook to the CDE for review.

Conform State Audit Requirements to Federal Law

New federal rules require an audit only if federal funds received are greater than \$300,000 annually. It was the intent of the CDE, through the Prototype, to raise the state audit threshold to \$300,000 to conform to federal standards. The Department of Finance, however, had a concern that raising the audit threshold for state-funded contracts could reduce the ability of the CDE to detect and correct problems that audits typically identify. In order to continue to provide fiscal oversight of all CDE child care and development contractors, non-LEA participants are required to follow the audit requirement as outlined on the attached matrix (Attachment A).

- For-Profit agencies are to submit to CDE;s Office of External Audits the IRS form that is used in lieu of IRS Form 990.
- Audits on Federal funds <\$300,000 are not reimbursable through the Federal Contract, but will be reimbursed from another CDE fund source.

Federal contracts that expire on June 30, 1998, are subject to the following audit requirements:

>\$300,000 – 1 year Contractor Audits <\$300,000 – OWA

C. PROTOTYPE ACTIVITIES

Issue Two-Year Service Contracts/Agreements

Issuance of a two-year contract should enhance the agency's ability to accurately forecast short-range and long-range business plans, as well as to efficiently budget for their program needs. In addition, this allows contractors to carry over funds from the first year of the contract term of the second year thus permitting more local flexibility in controlling expenditures. Conversely, this allows contractors to apply funds received from the state in the second year of the contract to reimburse first-year expenditures, provided another cash source is available to fund the first years expenses.

LEA Prototype contractors Paid by the Principal Apportionment

All CDE child care and development programs operated by an LEA are paid through the principal Apportionment Unit in the Finance Administrative Services Division (FASD). Monthly apportionments are issued to the agency's county treasurer by the 25th of each month through the existing revenue limit process.

The State 3 Alternative payment programs (FAPX or F3AP) are included in the Principal Apportionment process for fiscal year 1998-99.

At the end of the two-year term, FASD will "Close" these agreements based on the June 1999 report form, and any amount not earned by the agency (or any amount not reservable) will be calculated and the MRA for the First Principal Apportionment in February 2000 will be reduced by the unearned amount. If the decision is made to return to the contract process and make payments through the Child Development Fiscal Services payment process then any unearned funds will be billed based on the Agency's 1999 report.

Grants Instead of Contracts for One-time Expenditures

One-time only, non-service agreements are issued as grants instead of contracts to Prototype participants. These include, but are not limited to, Health and Safety Training, Renovation and Repair, Consortia Program Quality and funds for the Child Care Initiative Project. This process has allowed the CDE to expedite the allocation of funds by sending out an award letter to the contractor, which under most circumstances does not require the approval of an agency's board of directors.

All agencies receiving these grant funds are required to complete and submit the necessary expenditure reports by the 20th of the month following the end of the grant period. The required reports were included with each acceptance letter. Failure to return the report to the EFD will result in a billing for the full amount of the grant. Any funds unexpended or expended for purposes other then those outlined in the terms and conditions outlined in the grant award letter will result in a billing.

C. **PROTOTYPE ACTIVITIES**

Elimination of MDO Req; uirement as a Contract Term

Minimum days of operation (MDO) are no longer included as contract term for Prototype agencies, however, the funding terms and conditions will indicate that 246 is the MDO for a full-year program and 175 days for a school-year operation. Contract earnings will no longer be adjusted for failure to operate at least 98 percent of the MDO, but the Child Development Division (CDD) will monitor the days of operation as a program quality issue. The amendment that extends the contract for the second year deletes the reference to an MDO requirement.

Redefinition of "Start-Up" Cost

Terminology has been changed from "start-up costs" to "service level exemption" to clarify that in the first year of the contract the agency would be released from the service requirement and allowed to apply up to 15 percent of the new or expended contract amount toward one-time start-up expenditures. Based on the decisions made by the Prototype participants, CDE will develop recommendations to revise ED Code to include greater flexibility in the types of expenditures that can be claimed as a service level exemption, as well as include provisions to address alternative payment programs and Program Implementation Awards (PIA).

Delete Comparability Calculations for Commingled Programs

Under the present system, costs are prorated between or among contracts, and/or funding source, by the average cost per child for reimbursement purposes. Non-subsidized families are currently required to pay a rate equal to the amount the State pays for subsidized children, which includes the costs of meeting contracting requirements. It was the intent of the CDE to test the discontinuance of the proration of costs based on the percentage of subsidized and non-subsidized children served in a commingled setting. However, in their official notification letter giving approval for the implementation of Prototype, the Department of Finance did not concur with CDE's recommendation to test this issue.

The prototype contract person at FASD is Fiscal analyst, Deborah Lindley, at (916) 324-6611.

CONTRACT SERVICE EARNINGS

Areas of Differences:

General – Center Based Programs

Prototype

<u>Model 1</u> – Same, but attendance includes excused absences.

<u>Model 2</u> – Same, but contract rate includes child hours of enrollment and actual percentage of attendance includes:

- (1) additional eighteen percent (18%) for infants 0 18 months, and
- (2) additional fifteen percent (15%) for all other age and special needs categories.

If the agency has maintained attendance for the previous three years at no less than ninty-five percent (95%) service earnings will <u>not</u> be reduced.

Model 3 – The adjusted child days of enrollment for certified children, times the contract rate per child day of enrollment.

Ordinary

"The adjusted child days of enrollment (ACDE) for certified children, times the contract rate per child day of enrollment times the actual percentage of attendance plus five percent (5%), but in no case to exceed on hundred percent (100%) of enrollment.

Prototype

Model 1 – Same, and includes:

Non-SAPID Contractors:

- a). If an excused absence is based on time spent with a parent or other relative as required by a court of law, the basic data file shall contain a copy of the court order;
- b). Adopt reasonable policies delineating circumstances that would constitute an excused absence for "family emergency" and "in the best interests of the child"; and
- c). Except for children who are recipients of protective services or at risk of abuse or neglect, excused absences "in the best interest of the child" shall be limited to ten (10) days during the contract period.

Model 2 & Model 3

Contractors shall develop policies regarding absences including criteria to be used for disenrolling families for "excessive" absences. Contractors shall inform parents of these policies and include them in the parent handbook.

Ordinary

Attendance, for the purposes of reimbursement, includes excused absences because of illness or quarantine of the child, illness or quarantine of their parent, family emergency, court ordered visitations or a reason which is clearly in the best interest of the child.

since there is no longer a maximum reserve account cap for center-based programs. Although this sample references alternative payment programs, the same procedure will apply to federal and state resource and referral reserve accounts. All center-based contract reserve amounts will be calculated at closing on June 30, 1999, but will not be subject to billing
